## Report Suggests Revision

● LAW SCHOOL specialization in Federal Jurisprudence and Administrative Law was suggested in the report of the George Washington Law Association, which also urged the revision of methods to include more problems and moot court work and more attention to research into historical development.

The report emphasized the need of improved library facilities and reduction in the size of classes, and suggested that successful accomplishment of these objectives might be brought about by the application of all Law School revenues to the Law School.

The association, which is composed of alumni of the Law School, submitted its report and recommendations to President Marvin April 28, transmitted by a letter signed by E. Hilton Jackson, president of the Association.

Mr. Jackson repeated in his letter the complaint contained in the report, that President Marvin and the Board of Trustees have failed to make available figures on the revenues of the Law School and their disposition in the administration of the University.

The report, which President Marvin has promised will be discussed with the Board of Trustees and with Law School Dean Van Vleck, contains an exhaustive study into the functions of a law school and the performance of those functions at the University.

Should Teach Basic Concepts  
It is stated that a law school should ground its students in a knowledge of the basic concepts of law and the methods of deducing from them other concepts and of applying these concepts to economic, personal and social problems.

These functions are being carried out as satisfactorily as present conditions permit, according to the report.

Further improvement will require the cutting down of teaching hours and the size of classes, and the devotion of more time to problem work.

Better Library Needed

The function of training the student in the methods of consulting, weighing, and applying the authoritative sources of legal information could more efficiently be discharged by better and more complete library facilities and more moot court and problem work.

Inculcating in a student a love for his profession, a respect for the highest traditions of the bar, and a desire to improve the administration of justice; and giving him information about the practical aspects of law practice are cited as important duties of the Law School.

Specialization Suggested  
Auxiliary functions specifications  
(See Report, Page 4)

## Students Affirm Judges' Choices In Photo Contest

● ENTRIES IN THE spring Lens and Shutter photographic contest were subjected to two judgments, one by the usual contest judges and one by students, but the results were almost identical.

In three classes, grand prize, pictorial and candid, students and judges agreed. It was only in the portrait group that they differed, the students selecting "Appeal," by W. W. Lineberger, over "Little Thoughts," by C. Smith. The judges' choice, "Little Thoughts," was only seven votes behind the winner out of approximately 90 votes cast.

The silver cup grand prize awarded Robert E. Dunn for "Butts," was presented to him as part of the last Buff 'n Blue Room program. The presentation was made by Sterling Wright, president of Lens & Shutter.

## Dr. H. C. Davis 80 Year-Old Alumnus, Praises Youth Of Today

By Marcel Desgalier, Jr.

● "WHEN WE have a generation that is experimenting, it is a good sign. The youngsters of today simply want to know what it is all about—in religion, in politics, in all our social relations."

Thus does one of the University's most prominent alumni sum up his observations regarding today's generation.

A man who has always been interested in young people and who has devoted his life to their education, Dr. Harry Cassel Davis is today one of the oldest living graduates of George Washington University. He is a member of this chapter of Sigma Chi.

Dr. Davis further asks: "If it were not for the experimenting of the past, what would we do for the telephone, for radio, for aviation, for many things we enjoy today?"

Secret of Youth

Dr. Davis declares that one of the secrets of retaining youth is being interested in young people. Dr. Davis laughingly added: "Keeping young is largely a matter of restraining one's waist measure."

At 80 Dr. Davis is erect, has the robust appearance of an outdoor

## 4 Delegates Are Elected To New Council; Freshmen Deadlocked

● THE CONVENTION of miscellaneous clubs will meet tonight to choose a Student Council delegate.

Time and place of the meeting will be posted on the door of the Student Council office today.

● ALL BUT ONE of the activity delegates to the Student Council were elected by group conventions which began last Thursday. Following are new delegates who will serve until next February:

Layton MacNichol of the Union, forensics delegate; Phil Fairchild, of the Band, music delegate; Frank Ford Burnet of The Hatchet, publications delegate.

Freshman Director Not Chosen

The election of a Freshman Director was thrown into the Student Council when the Freshman-Sophomore convention became deadlocked, three to three, and was adjourned after two hours of bitter wrangling.

The new Council probably will elect its own Freshman Director, as provided in the Articles. President Bill Rochele said it was "the clear intent" of the Articles that the new Council, and not the old, should make such selections when conventions fail to act.

Except for this office, the personnel of the Council will be completed tomorrow night.

Only Functional Office at Stake

Freshman directorship is the only "functional" office who is not elected at large. The post is considered highly important, and the delegates, although not actually instructed by their clubs, divided, on every roll call, strictly according to party lines.

No delegate would yield, and no compromise was offered, which made a choice impossible.

Kniffin vs. Miller

Three Independents—two Freshmen and a Sophomore—nominated Wayne Kniffin, although he had previously announced he would not be a candidate.

The Service delegates—one Freshman and two Sophomores—backed Alice Miller.

Freshmen Oppose "Deals"

Before the clubs met to elect delegates, there was an attempt to pledge the Freshmen delegation to Phil Fairchild, a Non-Partisan. The move collapsed, however, when the club once again declared itself opposed to "politics-and-deals" and selected an uninstructed delegation.

Freshman Club

Policy Statement

To the delegates elected to represent the Freshman Club in the convention selecting the Freshman Director:

The Freshman Club is putting its trust in you with the definite expectancy of having each of you vote for the person you think would best serve the school as Freshman Director. Each of you has a free hand; each of you is expected to have a free hand.

Under no circumstances are you to abide by any deals, political line-ups, or personal pressure. The Freshman Club administration, and the administration thinks that the club joins with it, expects you to vote after fair, non-partisan thought to the continuance of the non-political attitude of the club administration.

Sincerely yours,

Eugene M. Lerner,  
President.

## 70 Attend Student Club Luncheon

● MORTAR BOARD'S last "Apple Polishing" luncheon of the semester was held Saturday in the Student Club with professors and students of the English Department as guests.

Among the seventy persons attending were Dean William Crane Johnson, Dr. DeWitt Croissant, Prof. John Tillema, Prof. Courtland Baker, Dr. Fred Tupper, Prof. Frank Smith, Prof. George Stone, Prof. Audley Smith, Prof. Charles Cole, Prof. Douglas Bement, Dr. Robert Bolwell, and Prof. Ernest Shepard.

The luncheons, which favor better teacher-student acquaintance, will be resumed again next year.

Election of officers followed the luncheon, results of which were: Mary Jo Mitchell, president; Elizabeth Burnett, vice-president; Marjorie Allen, secretary-treasurer; and Muriel Merelman, editor.

Mary Jo Mitchell will be delegate to the National Convention of Mortar Board at Troutdale, Colorado, the end of June.

Dr. Wade recently returned from the Orient and is visiting only a selected group of medical schools during his short stay in the United States.

En route to the States, he attended the recent International Congress on Leprosy at Cairo, Egypt.

An invitation to hear the speaker has been extended to all Medical School students and faculty members.

Wade Discusses  
World Problem  
Of Leprosy

● "LEPROSY AS A World Problem" will be the subject of a lecture by Dr. H. Windsor Wade, medical director of the American Medical Foundation, at the Medical School, Thursday at 11 a.m.

Dr. Wade recently returned from the Orient and is visiting only a selected group of medical schools during his short stay in the United States.

En route to the States, he attended the recent International Congress on Leprosy at Cairo, Egypt.

An invitation to hear the speaker has been extended to all Medical School students and faculty members.

## Armstrong Builds Radio

● CONSTRUCTION of the transmitter for the University's proposed radio station is now being accomplished by Major Howard S. Armstrong of Columbia University.

According to Horace Lohnes, who has offered to obtain the station, Armstrong will complete the station sometime this summer.

No formal proposal has yet been made to the school, Lohnes said, but the offer has been made known indirectly through members of the faculty who are interested in the idea.

It was learned by The Hatchet that a proposed plan for a radio curriculum was placed before the administration last year. No action has been taken on it up to date.

President Marvin has lately been too busy with other pressing matters to give the proposed station his consideration.

Contrary to the opinions of some, the station, if accepted here, would not have to maintain a full, definite schedule.

The only requirements on the educational band would be that it operate for only one hour a day. Also, the programs would have to be for the advancement of education. No commercial announcements could be allowed.

The frequency in the educational broadcast band would be between 41,000 and 41,900 kc., which, according to Lohnes, can be picked up by most modern receivers.

For stations using this band, rule 1059 (c) of the Federal Communications Commission states: "Amplitude modulation (in use by receivers today) shall be employed exclusively unless it can be shown that there is a need for frequency modulation (the system to be used by the proposed transmitter) may be authorized provided sufficient channels can be grouped so as to obtain the required band without causing interference to established stations or preventing the full expansion of the service."

The experimental frequency would be in the 42,000 to 43,000 kc. (See Radio, Page 4).

Under no circumstances are you to abide by any deals, political line-ups, or personal pressure. The Freshman Club administration, and the administration thinks that the club joins with it, expects you to vote after fair, non-partisan thought to the continuance of the non-political attitude of the club administration.

You are not to vote for political reasons nor for sentimental reasons.

The administration of the club feels that it is greatly important that the Freshman delegates realize the above points. It is vital to the continuance of the non-political attitude of the club administration.

Sincerely yours,

Eugene M. Lerner,  
President.

## All-American Honors Accorded To Hatchet

● IN A RECENT rating by the All-American Critical Service of the Associated Collegiate Press, The University Hatchet received All-American rating. A total of 445 college newspapers were entered. The Hatchet receiving 705 points out of a possible 1,000.

Commenting on the awards, Fred L. Kildow, Director of the Associated Collegiate Press said, "The judges have given accurate appraisal after careful consideration according to the highest standards. The scores are never flattering."

The papers were judged by Dr. Ralph O. Nafziger, Prof. Edwin H. Ford and Mr. S. E. Mickelson of the Department of Journalism of the University of Minnesota; Mr. Earl Kirmser, member of the Minneapolis Journal, and assistant in journalism, Mr. Frederick J. Noer, editor, Collegiate Digest, Mr. Harry Atwood, 1931-32 editor of the Minnesota Daily and present editor of Northwestern National News; and Mrs. Edwin H. Ford, Minnesota Journalism graduate.

Pace-maker honors, the highest recognition given to college newspapers, were awarded to The AKRON BUCHTELITE, University of Akron, Akron, Ohio; THE DAILY TEXAN, University of Texas, Austin, Texas; ECHO WEEKLY, Milwaukee State Teachers College, Milwaukee, Wis.; LOS ANGELES COLLEGE, Los Angeles, Calif.; THE MINNESOTA DAILY, University of Minnesota, Minneapolis, Minn.; and THE OREGON DAILY HERALD, University of Oregon, Eugene, Ore.

Pace-maker honors, the highest recognition given to college newspapers, were awarded to The AKRON BUCHTELITE, University of Akron, Akron, Ohio; THE DAILY TEXAN, University of Texas, Austin, Texas; ECHO WEEKLY, Milwaukee State Teachers College, Milwaukee, Wis.; LOS ANGELES COLLEGE, Los Angeles, Calif.; THE MINNESOTA DAILY, University of Minnesota, Minneapolis, Minn.; and THE OREGON DAILY HERALD, University of Oregon, Eugene, Ore.

## Oratory Winner McKool Is Oratory Winner

● "CAN WE TRUST His Majesty's Government" was answered in the negative so convincingly by Michael McKool that he won the Phi Sigma Kappa Freshman Oratorical contest last week.

Henry Reasin's "Shall We Keep Forgetting the Forgotten Man" won second place, and Ira Brown's "Jefferson's Real Memorial" won third place.

Reasin accomplished his desire to "make the audience so uncomfortable" that they might feel as he did about the "clay eaters" in the southern states.

Ira Brown declared that Jefferson's real contribution to society was his democratic principles in education, government, and way of life.

Emily Sirola spoke on "Flower Impressions" and Raymond Reiser's topic was "The Reasons Why Physical Education Is Gradually Making Its Place in the Curriculum of Our American Universities."

McKool began his address by saying "I admire England, but I admire and love the Stars and Stripes above the Union Jack." He further stated "History proves that interests influence governments to unite and not culture and philosophy of government." He pointed out how in the past we had been made the "goat" by England and how we had fought her wars for her, and strongly urged that in the future we become "opportunistic" in our foreign policy.

Reasin told of the tenant farmers of the south and of their sad plight since the passing of the agriculture bill paying farmers for not raising crops. He said that the owners of the land have turned away their old tenants and have taken all the profits given out by the government thus forcing the poor laborers to eat "clay."

Ira Brown showed how Jefferson's name would live forever through his democratic teachings and philosophy of government. He pointed out the debt owed by the common man to Jefferson, and he said it was aim of Jefferson to form a true "democracy."

The chairman of the contest was James Thomas, former winner of the Freshman Oratorical Contest and past president of Phi Sigma Kappa.

Judges were Dr. Harold Harding, assistant professor of public speaking; Dr. Stuart Britt, assistant professor of psychology; and Joseph Danzansky, law graduate of the University.

## Building Dedication Set For Constitution Day

● THE CORNERSTONE of the Hall of Government will be laid tomorrow on Constitution Day as the University is rededicated to the preservation of Constitutional government.

This occasion is being taken to give expression to the gratitude of all associated with the University to Mrs. Henry Alvah Strong, member of the Board of Trustees, who last year gave the Hattie M. Strong Residence Hall for Women and this year has made possible the erection of the Hall of Government. Mrs. Strong will be the guest of honor at the ceremonies.

The cornerstone of the Hall of Government, which is now rising on the University campus, will be laid by the Grand Lodge of Masons of the District of Columbia. Masonic bodies have contributed largely to the development of the University School of Government. A one million dollar endowment was received in 1928 from the Supreme Council, Scottish Rite Masons of the Southern Jurisdiction; the National League of Masonic Clubs each year contributes to the support of chairs in Foreign Service and has established twelve scholarships, the Order of Knights Templar of the United States of America has established seven fellowships providing for graduate study in the school.

Immediately following the laying of the cornerstone a reception will be held in honor of Mrs. Strong at the Hattie M. Strong Residence Hall for Women.

Mrs. Strong's gift of the Hall of Government was made anonymously last June and it was only in February, after the site had been selected and work on the building was about to begin, that she was persuaded by President Cloyd H. Marvin to permit it to be announced in her name.

The hall is being erected by Mrs. Strong as a tribute to her son, Mr. L. Corrin Strong, without whose hearty cooperation it could not have become a reality, and in appreciation of his willingness to give up a personal career to carry on, without remuneration, the educational and philanthropic work of his mother. Mr. Strong is president and treasurer of the Hattie M. Strong Foundation, which was incorporated and endowed by Mrs. Strong in 1928 and which to date has assisted nearly a thousand young people of all nations, colors and creeds to secure higher and specialized education better to fit them for happy and useful lives.

Mrs. Strong's numerous benefactions include the erection of thirteen buildings devoted to educational and social service in Washington, D. C.; Rochester, N. Y.; Tacoma, Wash.; Hampton, Va.; Moussey, France; Peiping, China; and Shoon, Africa; as well as endowments for laboratories, rooms and beds in various hospitals and beds in various hospitals and gifts to mothers and children's homes.

Last June the University conferred upon her the honorary degree of Doctor of Laws in recognition of her contribution to education. She has been decorated with the Legion of Honor of France, Reconnaissance Francaise, Order of St. Jova of Yugoslavia and Cross of Honor of the United States Flag Association.

"Man is but a reed, the weakest in nature, but he is a thinking reed."

## Constitution Day Dedication

THE UNIVERSITY has set aside Wednesday of this week, May 18, as Constitution Day, and on that day ceremonies will be held symbolizing the dedication of the University to the preservation of constitutional government and its attributes. This year the day holds a special significance, for tomorrow the cornerstone of the University's new Hall of Government will be laid.

At these ceremonies there will be afforded an opportunity for the University to express in some measure the gratitude that it feels to a great friend of the University, Mrs. Henry Alva Strong, who made possible, by her generosity, the building of this building and who last year donated to the University the Hattie M. Strong Residence Hall for Women.

To her the University is deeply indebted, for by her benevolence great progressive strides for a greater University have been made possible. The manner of her giving is even more indicative of the spirit in which she holds the University, for it was only through the persuasion of President Marvin that she agreed to let it be announced that the anonymously offered gift had been made through her generosity.

It is strikingly fitting that the University and the student body as a whole give expression in some manner for the gratitude which the University feels toward the generous friend and trustee of the University.

## Revamping The Union

ACTION that points to a revamping of the Union as it is now constituted has been instituted by the Executive Council of that body on the campus, and it seems to be well founded action, for the Union has certainly fallen into need of reorganization of a type that will serve to make it a more valuable activity.

That the Union serves a great good to a number of students on the campus cannot be denied, but it cannot also be denied that it is not a popular activity on the campus, meriting as it does the attention of only a small body of students. This fact is not the fault of the students engaged in the activity of conducting the affair of this "mock congress," but is rather the fault of the system under which they have been working.

Several good suggestions have been made to aid the Union by strengthening it, including the formation of a Union based upon the block-system used in the French government as well as a plan for the instituting of parties along the lines that are found in the English Parliament.

We hope that the Council of the Union will be able to formulate a plan of revision that will serve to make the Union the type of organization that it should be, one which has the support of the major part of the student body. Ours is a unique University in that its student body is greatly interested in the affairs of the Federal Government, for a great portion of the night students are employees thereof. The Union has possibilities of cultivating that interest along lines that would be highly valuable. Further than this the very location of the University makes it ideally adapted to a Union program. For these and other reasons why the Union should and could have a more valuable place in the extra-curricular affairs of the University, we hope that the reorganization plans will be carried out in the most judicial and practical manner possible.

## The Greek Songfest

THE SCHEDULE of events of the past week carried one item, "Interfraternity, Intersorority Sing," and its passing, that event has clearly stamped itself as being one of the finest additions to extra-curricular activities at the University during the past few years.

This year's sing, the second ever held, was one of outstanding events of the school year, creating a feeling of a definitely "collegiate air" as is rarely seen here. Bringing together all of the sororities and fraternities in a type of competition that is remarkable in its aspects, the sing proved to be highly interesting, delightfully entertaining and highly competitive in nature.

With the "Tin Tabernacle" resounding with the words of the songs of the University and those of the various social organizations on the campus, the event truly presented an appearance that is entirely desired for the furtherance of a feeling that ours is a college that is bound closely together by that undefinable something termed, for want of a better cognomen, "school spirit."

All of those who worked for the success of this affair should be congratulated upon the fine manner in which it was conducted, for so well did the spectators respond to the singing that they themselves filled the gym with vocal harmony during the intermission while awaiting the decisions of the judges. Good only can be served by such an event as this.

## Expression Of Sympathy

THE HATCHET Board of Editors wishes to extend to Cap Gardner its sincerest sympathies in his recent misfortune in a baseball game Sunday and to extend a hope that his will be a quick recovery. It is tragic indeed that this well-known and well-liked student has become the victim of such a vicious accident, and especially since it was more or less due to his own over-anxious and zealous attempt to do well that which he was doing.

There is little that can be said that would make possible the avoidance of such accidents in the future, but many have held that such a serious accident would not have occurred if the Interfraternity council had sponsored softball instead of hard baseball. That, however, is probably a debatable point, but we feel that the council should take the matter into consideration.

### Other Campi

#### Tree Is Editor's War Memorial

To Be Cut Down When First Dies in Future War

By Abe Simon

"We want to see our own war memorial... We who are alive today, must die in the next war. Therefore, our memorial must also be a living thing, an appropriate symbol of our living faith in the future. If that future is cut off, then let our memorial be cut off, too.—The Daily Northwestern.

In this editorial published by the staff of the Northwestern University publication, an explanation is made for the planting of a maple tree on the campus meadow of that school.

The tree, planted at the conclusion of a mass Peace Day meeting, will be a living memorial for members of the newspaper's staff until the first member of the present editorial board dies in a future war. It will then be cut down.

No "Hell Week"  
● Phi Epsilon Pi at Syracuse University has substituted an "orientation week" for the traditional "hell week." During this orientation week, no hazing or forced obedience is practiced by the fraternity. It is during this week that pledges are given oral and written quizzes on practical applications of principles learned during the pledge period.

● Kay Kyser, popular orchestra leader, maintains that undergraduates of colleges in the metropolitan New York area prefer soft, smooth music for dancing instead of the currently popular swing.

"The consensus of opinion," says Kyser in his recently-initiated Kampus Komments column, "seems to be that while swing was swell to listen to, softer and smoother music was preferred for dancing."

● Aerobic instructors at the University of North Carolina are entertaining the freshmen.

When an exasperated Freshman English instructor asked his class if he had, to stand on his head to get their attention, the class shouted, "Yes!"

Undaunted, the instructor removed his glasses, stood on his head in front of the fascinated freshmen for several moments, and then calmly resumed his lecture.

● Streamlining Government.  
● Schenectady, N. Y.—(ACP)—Union College students have streamlined their undergraduate governing system.

By a vote of the student body, undergraduates have adopted a new constitution that provides for functional and proportional representation, petition, referendum, and recall.

The new constitution provides for a Student Council form of government, in which 11 councilmen are to be elected by extra-curricular organizations supported by student tax, 25 elected on the basis of one for each forty students, four class presidents, and a student tax committee chairman. Faculty coordinator of student activities will advise but not vote in the Council.

● New York City—(ACP)—A new experiment in municipal government research has been instituted here by Mayor Fiorello H. LaGuardia and this city's municipal educational institutions.

Under a new plan announced last week, students in the city's colleges will be trained for civil service careers by doing undergraduate research in the various policy-forming departments of the city government.

● The Syracuse Daily Orange and the Michigan Daily were the two college newspapers to which the first two Sunday evening "Musical Gazette" programs were dedicated. The former was newspaper of honor of the first program on the C.B.S. network two weeks ago. Last Sunday, the University of Michigan publication was similarly honored.

The Daily Orange, a pioneer in radio news broadcasts, sponsors daily news programs over the Syracuse University's radio station WSYR.

The Michigan Daily has had several famous men among its editors. Thomas Dewey, New York City district attorney, is one of the Daily's former editors.

#### University Flag Flies By Night

● There are three places in the United States where the country's flag has a right to fly day and night.

The University seems to have taken it upon itself to write into custom a fourth place—over the now-being-constructed Hall of Government. The flags of the United States, and of George Washington University have flown side by side atop the Construction Tower since it was first erected—as I remember, at least, three weeks ago.

To my knowledge, there is no law to the effect, but strict custom has made it obligatory that the Stars and Stripes be hauled down every sundown. The only exceptions are over the grave of the Unknown Soldier, over the Capitol when Congress is in session, and over the White House when the President is in Washington.

Perhaps it would be a bit troublesome for someone to take it down and put it up every day, but a custom should be followed by an educational institution.

A Day Student.

#### Roller Skates "Mad Money"

OR

Question That Bothers Miss Seventy Cents

Dear Adviser to the Love Lorn:

Are Roller Skates a proper substitute for "Mad Money" and how far is too far to roller skate home? When does one become a "sucker"?

Miss "Should I Carry More Than Seventy Cents?"

I am not quite the authority I would like to be in a situation like this—but—

This roller skate idea is not an entirely new idea as a past instance has brought to mind a similar circumstance whereby some poor fellow had to walk home.

Personally, I think I would have to be awful mad to start out with before I would cart around a load of roller skates. However, virtue is its own reward.

Necessity is the mother of invention, so 'tis rumored, and so I suppose that the modern purse takes care of this sort of thing.

"Mad Money"—If you have mad money why go out on a date? And if you have mad money, well, the number is Me. 8889. I ain't been out for a long time.

The second question how far 'tis too far to walk home. That depends on the "mad money" the condition of the feet, and other various and sundry considerations.

But mainly, I believe, the problem lies in "mad money." It is indeed unfortunate that I have not had a similar experience, but Mr. Coffman, a far greater authority than I, says that when he was let off in the middle of nowhere a bus soon came by to pick him up. But here again, he did not give the kind of bus or the full details, and the situation was slightly different, as he was "out-looking at a slightly flat tire—so 'tis rumored—and the little girls drove away and left him stranded.

But for further experience and advice and suggestions I suggest you contact the authority.

The seventy cents part of your argument is intriguing. Why seventy cents? The condition of most of the cars in the proprietorship of students will not allow the students to go much beyond the 70 cent zone, but, I suppose your question is—"Is 70 cents too much to spend?"

Well, according to my little girl Friday, "It depends on the time, the place and the man."

Know All, the love lorn adviser, P. S.: After much consulting, and deep consultations, and cogitations, with one who furnished the car for the above-mentioned instance with Mr. Coffman, the answer is: To a Girl—when she goes beyond the seventy cent zone, and to the fellow—when he lets her bring her roller skates.

#### Colleges Oppose Hague's Actions

● Recent Fascist-like tactics of Mayor Frank Hague, of Jersey City, N. J., have aroused action within collegiate circles as well as the world outside university halls.

The action has been taken upon the initiative of an American University newspaper editor, and calls for the sending of gridiron greets of that school and others interested in the drive to assist two members of Congress to make speeches in the New Jersey city, despite serious objections and threats on the part of the unreasonable mayor.

Such a gesture on the part of universities is laudable, for it is indicative of the interest of collegiate journalists in the field of national affairs. Whether or not the aid of such football players will prove of assistance or will be able to be utilized by Representative O'Connell and his colleague is uncertain.

Although The Hatchet is unable to offer the services of football players, if there were within the University enough students interested in the cause undertaken, The Hatchet would be willing to aid them in their efforts in whatever way possible.

A great deal is at stake in the current trouble that the rights of free speech are experiencing at the hands of this autocratic mayor, for if he is successful in his curbing of speech within the city, he may also be successful in curbing the freedom of the press and further encroach the liberties of the supposedly democratic citizen of his town.

It will be interesting to note with what success the efforts of the American University journalist meets in his efforts to secure the aid of other invited universities in offering aid to Representative O'Connell.

#### Student Resents Friends' Advice

To the Editor:

This may be regarded as a letter of thanks. During the recent strike for peace and democracy several well meaning individuals conferred their paternalistic-like blessings upon me and with a pat on the shoulder issued an earnest hope that someday I might become sufficiently enlightened to see, the error of my ways and refrain from such further "un-American" demonstrations. I appreciate their interest in my intellectual well being and trust that they may allow this question of enlightenment to become a mutual arrangement.

There are two theories of practice in the field of medicine. One is the curative theory which allows the patient to become afflicted and then sets about to rescue him from tragic results. The other theory is the preventive idea that he should be insured from the affliction. The same applies to war. We can construct enormous armaments to rescue us after the affliction has set in, or we can set about to eliminate the causes of war. My participation in the peace strike was founded largely on the observation that it might express to some degree the notion that the preventive theory should be adopted.

The findings of the Senate Munitions Committee will disclose the ease with which the vested interests translated the dangerous position of foreign loans and investments into a matter of preserving world democracy and the national integrity back in 1917-1918. The modern war is largely a struggle for economic aggrandizement by those who stand to profit. In the last war it is difficult to ascertain just how the average man and woman hoped to profit, however true to the American ideal they felt before the barrage of propaganda and became the willing stooges of the vested interests. From those of the average man and woman in America.

I would not hesitate to fight for my country if I thought the cause a worthy one, however, I am not willing to admit that the seat of government has been moved to Wall Street.

Of course, some people like being used in a demonstration which rejects this policy of being stooges in un-American-I assure those well meaning individuals that I shall not contest their right to being the only real and true Americans.

George A. Pugh, Jr.  
Law School

#### There's No Foo Like An Old Foo

By Betty Stevenson

● IT'S-NICE FOO if you can get it, and you can get it if the fellow next to you writes large. So be the philosophy of rationalizing undergraduates these days.

Such were the sentiments of an aspiring geologist while slides were being shown:

Roses are red,  
Violets are blue,  
I have a bicycle,  
Will you be my Valentine.

A certain literature prof. when discussing a selection of poetry not particularly to his liking repeated the following line and comment: "A sad discussion of sin"—"in other words, a fraternity ball session."

### The Activity Scene

#### "Idealism" Loses Fight With Politicians

If You Must Speak Loudly, Carry a Big Stick—And Know How to Use It

By Frank Ford Burnet

● The failure of the Freshman-Sophomore convention to elect a Freshman Director was also a failure in leadership which is highly disappointing.

The most important consideration is that the convention ought to have made its own selection, instead of throwing the choice into the Student Council.

Also significantly, "idealism" took a definite fall, despite the failure of an informal agreement—scornfully but erroneously referred to as a "deal"—to pledge the Fresh-Soph delegates to Phil Fairchild.

The Independents and Non-Partisans, of course, were out to clean up on whatever activity delegates they could, in order to have some representation of the new Service dominated Student Council.

Whether or not the two "out" parties ever actually agreed to an exchange of "support," it was obviously to their advantage to exchange support for certain individuals who were unquestionably well qualified, as was the case with Fairchild.

Such cooperation is a mere matter of common sense.

A great hue and cry was set up, however, about "politics." There are some who maintain rigidly that there is no politics—but definitely there was politics in the contest for the Freshman directorship.

It was the usual political game, played by the usual rules—rules which do not take "idealism" into account.

There is of course good and bad politics, depending on your point of view. But politics there is, and no good-sized organization can defeat politics except by playing a better brand of politics of its own.

This has been done once or twice during the past year.

Two days before the convention, Independents had no candidate for Freshman Director. Elsie Carper, Eugene Lerner, and Wayne Kniffin all had eliminated themselves.

The Non-Partisans did have a candidate—Phil Fairchild of Sigma Chi, a sophomore. Several prominent Independents—including Lerner and Kniffin—admitted that

Fairchild was well qualified for the office.

Came the suggestion of a "deal," however, and things went up in the air. Some of them are still falling.

The Freshman Club—very properly under the election rules—insisted upon having an "uninstructed delegation." It chose as its delegates two Independents—Elsie Carper and Catherine Caffey—and a Service woman—Rose Emily Johnson of Phi Mu.

The Sophs chose one Independent—Carol Fox—and two Service delegates—Morgan Percy, and Alice Miller, another Phi Mu.

When the convention met, Miss Miller of Phi Mu, became the Service candidate. Support then fell into its natural channels. Percy voted for Miss Miller. And what was Miss Johnson to do but vote for her sorority sister?

The delegates were—remember?—uninstructed anyway, and had a perfect right to vote as they did.

It certainly seems unjustified under the circumstances to complain because an uninstructed delegate makes up his own mind fairly and honestly, and votes his convictions. Miss Johnson had no mandate from the Freshman Club, and was clearly correct in voting for Miss Miller. That is not only good politics, but excellent loyalty as well.

And loyalty is not a virtue to scorn.

The two-day-school clubs, since they have failed democratically to make their own choice, can now sit back and see what kind of Freshman Director they will get from the Student Council. The appointment should be of some interest to the student body, as well.

In the meantime it may be wise to remember that when you're playing the other fellow's game, don't tell him you aren't going to stand big enough to make it stick.

## Birkby New Head Of Panhel

● VIRGINIA BIRKBY, president, Jane Coulter, vice-president, Alice Ahalt, secretary, and Alice Miller, treasurer, were installed yesterday as the officers of the Panhellenic Association for the coming year.

Miss Birkby, of Kappa Delta, has served as vice president of Panhel for the past year and in this capacity was one of the organizers and adviser to the Junior Panhellenic Council. She is vice president of her sorority and is a member of the varsity rifle team and of the junior staff of the Cherry Tree.

Jane Coulter, vice president of the organization, is also vice president of Zeta Tau Alpha, and is a member of the Intramural Board and the Riding Club.

Alice Ahalt is the Panhellenic delegate of Kappa Kappa Gamma and a member of the Junior Staff of the Cherry Tree.

Alice Miller, who took office as treasurer, is secretary of Phi Mu, vice president of the Sophomore Club, and a member of the International Students Club.

These officers were selected by rotation. The sorority now holding the position of vice president will become president next year.

## Virginia Birkby

## 'TIS RUMORED

By Archie and Speed

● DEDICATED to Sleepy and Dopey of the late Society Snoopers: Mary had a little slam For everyone, and so The leaves of her engagement book Were always white as snow.

—Sundial

'Tis rumored that one of the Strong Hall high-steppers pulled the aged old "love, honor, and obey" gag during the wee hours Sunday morn. How's about it, Boop?

★ ★ ★  
Pi Phi's Smith and Brown are unusually secretive about a recent trip to the Isle of Manhattan. Oh yes, they've achieved what we believe prompt their actions; we're burned up with curiosity.

★ ★ ★  
Dean Kayser's eyes are falling him, so we understand. Even though he sat on the front row at the Interfrat Sing the other evening, the Dean complained of not being able to see well enough while several of the fairer groups warbled their sweet ditties.

★ ★ ★  
"Deah, deah, what will come next? Yes, suh, we hear that K. K. G. Koupla Kappa Gals crashed the Phi Sig beer party Friday evening last. Now is that nice? And during the course of the evening the potency of the beverage produced a Don Juan of no mean ability in the Phi Sig ranks.

★ ★ ★  
Pray tell, Rosalind, what is the usual time and where is the usual place? We've always been intrigued by rendezvous.

★ ★ ★  
By the way, we wish to toss a bouquet to each of the winners of the sing, yowah. You certainly did a mighty sweet piece of work. This goes for both of you on your singing and to one of you on your showmanship. Need we say more!

## Intramuralists Honored

● THE INTRAMURAL Board entertained all sorority girls who had participated in intramurals this year and Miss Atwell, Miss Lawrence and Mrs. Buckley, guests of honor, at a luncheon at the Highlands Saturday.

Lella Hatchett, the former chairman of the Woman's Athletic Association, awarded Chi Omega with the relay cup and the Intramural cup. She also awarded Intramural letters to Lillian Willett, Mary Armstrong, and Virginia Webb for volleyball; Carol Fox for ping pong; Gerry Hitchcock, Elva Lohr, and Virginia Tehas, for bowling; and Mary Virginia Miller and Alice Miller for badminton.

Rosalind Lovell was announced as the chairman of W.A.A. for the coming year.

## Newman Club Holds Breakfast

● REV. JOHN FITZGERALD and Rev. John K. Cartwright will speak at the Newman Club Communion breakfast which will be held Sunday at 10:30 a.m. at the Wardman Park, following mass at the immaculate Conception Church.

## This Week In Greek

### FRATERNITIES

● SIGMA ALPHA EPSILON recently elected the following officers: Marvin Faris, president; Robert Carnahan, vice-president; Allen Dewey, secretary; Jack Clayton, treasurer; John Newman, correspondent; Pierce Hutton, chronicler; Frank Monahan, warden; Frank McGinnis, herald.

● KAPPA ALPHA will hold its annual Spring Formal at the Powhatan Hotel June 4. Northrup Church and his band will furnish the music.

Edward Prater, Kappa Alpha, and Barbara Dille will be married June 11.

● THETA DELTA CHI announces the initiation of Owen Sutherland, Stuart Baker, Thomas Walton, and Heinz Steinbach.

● PHI EPSILON PI's annual Summer Formal will be held June 19 at the National Women's Country Club. Music will be supplied by the Royal Blues.

● PHI SIGMA KAPPA. The pledges of Phi Sig gave a Beer Party at the House Friday night.

● PHI ALPHA held its annual Parent's Day Reception Sunday.

● SIGMA PHI EPSILON will entertain with their Spring Formal and Dinner Dance at the Washington Golf and Country Club on June 10. Ben Ratner will furnish the music.

● ALPHA MU SIGMA elected the following officers: Irving Gladstein, prior; Daniel Chesler, secretary; and David T. Shapiro, treasurer.

● Alpha Mu Sigma announces the initiation of Joseph Cohen, Charles Panzer, and Sol Resnick.

### SORORITIES

● KAPPA KAPPA GAMMA will give its annual Spring Formal at the Wardman Park on June 6.

● ZETA TAU ALPHA will have its traditional Beach Party June 3, 4, and 5 at Tall Timbers, Md.

● PHI MU will hold its annual Spring Formal at the Admiral May 21 from ten to one.

A dinner will be given at the Phi Mu rooms in honor of the approaching marriage of Jane Brower.

The Phi Mu's will entertain with a Beach Party June 7 at Plum Point.

● ALPHA DELTA PI had its traditional Founder's Breakfast at the Congressional Country Club Sunday morning.

● DELTA ZETA'S Spring Formal will be given at the Powhatan May 20.

## Faculty Women Hold Musical

● THE FACULTY Women's Club will hold its final meeting of the year Friday at 2:30 p.m. at the home of Mrs. Robert W. Bolwell, Silver Spring, Maryland. A musical program will be given by Mrs. Cloyd Heck Marvin and Mrs. Alfred Henry Lawson.

The following officers and directors of the club will be the hostesses: Mrs. William C. Van Vleck, president; Mrs. Lloyd H. Sutton, vice-president; Mrs. Henry W. Herzog, recording secretary; Mrs. Carl D. Wells, corresponding secretary; Mrs. L. Edwin Yocum, treasurer; Mrs. Joseph H. Roe, director; Mrs. Thomas B. Brown, director.

## Interfraternity Sing Features TinTabernacle

By Patricia Jahn

● THE UNIVERSITY'S old and revered Tin Tabernacle opened its eyes in something more than mild astonishment May 9, as the swish of evening gowns, the scene of perfume, and the dignity of tuxedos invaded its usual glum interior.

The thump of volley balls and basketballs gave way to the excited thumping of hearts, as each fraternity and sorority was called upon in turn to give their all for dear old "Sigma Whatsis."

The mellowed walls of the gym resounded loudly to marching songs, cheering songs, and mellow tones as the Greek letter groups turned into miniature glee clubs for the occasion.

Dean Kayser proved an able and witty master of ceremonies, interspersing introductions with appropriate quips.

Sigma Alpha Epsilon was awarded the Interfraternity Cup, following their rendition of "Violets" and a medley of "Hail the Purple" and "Sigma." Tau Kappa Epsilon and Sigma Chi were a close second and third, the T.K.E.s featuring the "Alma Mater" and the Sig's presenting "A Sig I Am" and "The Sigs Are Marching."

"Mood Indigo" and the "Panhellenic Creed" won the Panhellenic Cup for Chi Omega, while Alpha Delta Pi placed second with "Harbor Lights" and the "Sweetheart Song." Pi Beta Phi won third place with "When Day Is Done" and "My Pi Phi Girl."

A receptive audience filled the gym to the doors, leaving but little breathing space for the nervous contenders.

'Tis rumored the male competitors found little displeasure in the impromptu "fashion show" which preceded their performance, while the weaker sex quelled faint heart throbs as their current raves strode up to do or die.

While the judges went into a huddle to cast the deciding vote, spontaneous singing broke out in the audience, and melodic renditions of "Sweet Adeline," "Auld Lang Syne" and the usual "wee hour" favorites were cast upon the air.

So for another year the piano will go unplayed, the song books will gather dust, and sororities and fraternities may "rest in peace" till another Interfraternity-Panhellenic Sing rolls around.

## Varsity Rifle Women Entertained at Lunch

● HELEN HANFORD, University Women's rifle coach, gave a buffet luncheon at her home Saturday for the Varsity rifle women.

## University Fencers Defeat Washington

The University Fencing Club defeated the Washington Fencers Club in bouts at Pierce Hall May 6. The club closed its activities for the current year with a picnic at Jackson Island May 9.

## Independents Will Hold "Pre-Cram" Hop

● "THE PRE-CRAM Informal," final social event of the Men's Independent organization, will be held in the Student Club Friday evening from 9 to 12.

The affair, open to all students of the University, is expected to bring out all the political "big shots" for one last public appearance before the last-minute pre-exam "boning."

"This function continues our attempts to provide unaffiliated students with an inexpensive but satisfying social program," said newly-elected Men's Independents' President Stanley Segansh last Sunday.

He added, "In order to realize this ambition, we must feel that we can count on the support of the large group of socially-underprivileged students."

Biff Borden and Charles Butterworth, of Buff 'n Blue Room fame, have been engaged to do a little vocal rendition during intermissions, it was learned. Other features are also being scheduled, according to Bill Ressegger, in charge of the dance.

Recordings of nationally-known orchestras will be played by a special recording machine brought in for the event. Emphasis will be upon "danceable" selections, according to those in charge.

Admission will be 55c, stag or drag. Tickets may be purchased at the counter of the Student Club or at the door Friday evening.

## Rifle Team Takes 5th Place In N.R.A. Meet

● WITH A SCORE of 2,961 the University's Women's Rifle Team won fourth place in the National Intercollegiate Team Championship matches, according to the official rating of the National Rifle Association. Carnegie Tech took first place with a score of 2,984, and Beaver College and the University of Washington were second and third with scores of 2,974 and 2,966 respectively.

Last year the Buff and Blue team placed fifth in the same match.

The official high five scores for the University were:

Watson ..... 505  
Hobart ..... 504  
Ludwig ..... 504  
Bates ..... 500  
Ellis ..... 500

Coach Hanford also announces the elections of Marie McNeese as captain and Doris Ludwig as manager of next year's varsity.

## Delphi Announces Recent Elections

● DELPHI, women's honorary organization, announces the recent election of Carolyn Watson as president, Jane Reese as vice-president, Gretchen Hill as secretary, and Virginia McWhirt as treasurer.

## Glee Clubs Will Sing At Dedication

● REHEARSALS for both Glee Clubs will be held in Corcoran Hall today, according to Dr. Robert Harmon, director.

The women's club will meet at noon and the men at 7:30 p.m. to prepare a program for the Hall of Government corner-stone laying tomorrow.

The eleventh annual concert and dance given by the clubs, last week proved to be a huge success as evidenced by the audience.

Singing first, the men's chorus was so highly applauded that an encore was only refused because the concert had been late in starting.

A few of the more critical members of the audience also gave the women's group credit for a well-sung performance, but were of the opinion that the men had a "slight edge" over the women.

Accompaniment for the occasion was furnished by Mrs. Grace Ruble Harmon.

Considerable concern for the director was felt by all present as Dr. Harmon was forced to use a clump of four loosely-tied-together stools for a leader's platform.

Several times during the performance the stools took an unhealthy dip toward the floor and made the doctor step lightly to their center.

## Annual Banquet Will Close W. A. A. Season

● AS AN ADDED FEATURE of the annual spring banquet of the Women's Athletic Association tomorrow at 6:45 p.m. at The Parrot, moving pictures of the May Day dancing will be shown. Also scheduled for the evening is an address by Mary Haworth, Washington Post columnist.

Mystery still surrounds the name of the toastmistress for the banquet. Correcting a statement made previously in The Hatchet, Hazel Smallwood, in charge of the affair, has announced that the person who guesses the name of the toastmistress first will be admitted free.

Other events of the evening include the presentation of a cup to the outstanding senior woman and awards for the season's activities.

Tickets may be secured today from any member of the W.A.A. Board. The price is \$1.10.

## Riding Show Ends Season

● THE WOMEN'S ATHLETIC Association will close its spring sport season this year in a whirl of activity.

The riding classes held a riding show Wednesday at the Potomac Riding School. Winners in the various classes were as follows:

Beginners, Naomi Turover; Intermediates, Bette Burch; Advanced, Elva Lohr; and Pairs, Lorraine Williams and Josephine Bierman.

In the Jumping class there was only one entry, Lorraine Williams, and in the Novelty Events, the Musical Chair Race was won by Josephine Bierman and the Relay Race by Annette Mulligan, Anita O'Connor, Mildred Himmelfarb and Naomi Turover.

Miss Helen Evans, G.W. graduate and former president of the George Washington Riding Club, judged.

## Christian Scientists Meet Thursday

● THE CHRISTIAN Science organization will meet Thursday at 8:10 p. m. in Columbian House.

## Art School Presents Smock Ball

● "AT HOME" at the Art School was celebrated Saturday night by the presentation of a precedent-setting Smock Ball in the Sorority Hall Recreation Room.

A reception and exhibition of paintings completed by the students during the past year was held from 8 to 10, when dancing began.

Members of the Art School and students of other divisions of the University frolicked to the tunes of The Royal Blues Orchestra amid decorations provided by the Art School classes.

Mountain holly and the hand-dyed curtains were among the noteworthy features of the decorations.

The Smock Ball was sponsored by the newly formed Art Council, which is composed of Jack Shulman, chairman, and Alex Prescott, co-chairman; Virginia Moore, secretary, and Louise McCullough, treasurer, in hopes of establishing it as an annual campus affair.

# SO MILES AN HOUR!

**Engineer Bob Sharpe, of the 20th Century Limited, gives his slant on the question asked by Russell Thompson:**

**"Are all cigarettes alike?"**

**"I've always thought that cigarettes were more or less alike, Mr. Sharpe. What's your slant on that point?"**

**"All cigarettes alike? Not on your life, Mr. Thompson. There's a long list of differences in Camels—extra-mildness—natural taste—the greater pleasure I get—the fact that Camels don't give me jittery nerves. I've been smoking Camels over 20 years. And I've found that Camels agree with me—in many ways. From what I see, most of the boys in railroad are pretty much of the same opinion. Camels set me right!"**

(above, left) IN THE CAB of the big "J-3" that hauls the New York Central's 20th Century Limited. (above, right) Russell Thompson asks Engineer Bob Sharpe about the difference between Camels and other cigarettes.

More and more, one smoker tells another: "Camels agree with me!" Experienced smokers know Camels are the cigarette made from finer, MORE EXPENSIVE TOBACCOS—Turkish and Domestic.

"SKEET SHOOTERS," says S. Odus Walding, National All-Gauge Champion, "watch their nerves. It's Camels for me all the way—Camels agree with me."

MOZELLE HUBBARD, cashier of a noted Hollywood restaurant, says: "Camels taste different—richer, but milder. Camels agree with me from every angle."

## Turkish Harem Is Point Of Interest

By Manning Clagett

"DO YOU HAVE a harem and how many wives do you have?" is the great American question when American student meets Turkish student, and, as an afterthought, "How is your educational system?" At least these are the questions most often asked Bukal Baysoy, the University's only student from Turkey.

"I believe that one of our Lycees (secondary school) graduates in Turkey has a more extensive general knowledge of foreign political and social customs than a college graduate of this country," Baysoy said, "but perhaps Americans have a better sense of humor."

Baysoy, who could not speak a word of English when he came to the University four years ago, is the first student of a Turkish engineering school to continue his studies at this University.

The Turkish student was surprised that so few University students knew the political and educational set-up in Turkey under its president, Mustafa Kemal Ataturk. "Ataturk (which means Father of Turks) is deserving of the interpretation," Baysoy declared, "for he is not only Turkey's first president, but also is the man who really established the full independence of Turkey. He abolished the Caliphate and polygamy and inaugurated a Democratic era in Turkey. A new alphabet has been devised; emancipation of woman has been accomplished and there is broader schooling. A system of modern communications has also been established."

Asked about the question of schooling and illiteracy in Turkey, Baysoy said that illiteracy has been reduced, one-half due to compelling all illiterates under 45 years of age to attend school.

"Ataturk spends twenty-five percent of the annual budget for education as against four percent in the last years of the Ottoman empire," he said.

"To simplify education, the modern Latin alphabet has been substituted for the Arabic characters and all foreign words are being supplanted by ones of Turkish origin."

Baysoy said that secularism is a fundamental principle of teaching in his country and that Turkey is the only democratic country that exercises an absolute integral secularism in her schools without any restriction whatsoever.

Explaining the educational system in Turkey, Baysoy said that elementary education in state schools is compulsory between the ages of seven and sixteen. A five-year course is the requisite in primary schools. For those who finish the primary schools, there are the secondary schools, consisting of two separate cycles of three years each. The last cycle is the Lycee proper, in the last year of which students are separated into divisions of literature and science.

At the end of the last year at Lycee, in addition to the "leaving certificate" examination, students must take a matriculation examination before they may enter a University or other institution of higher learning. In Universities or specialized colleges five-year tutelage is required for a degree.

In Turkey, the young student said, education in all primary, secondary schools, universities, professional and higher schools is under the control of the Ministry of Education and no tuition is charged in all the state schools.

"One thing that would be strange to Americans is that the police department has no jurisdiction and no authority to arrest a student except

in cases of murder and espionage," Baysoy said.

"The student would be reported and his case presented to the school's honor court where penalty is enforced if the act is a minor one, or if the offense is of a serious nature it would be referred to a higher court under the jurisdiction of the Minister of Justice."

The Turkish student said that physical training and athletics in the Turkish schools are conducted under the regulations of the Ministry of Education, and courses in gymnastics and sports are compulsory. Students are not allowed to join any clubs outside the school.

## ART

By Jack Shulman

A COLLECTIVE sigh of relief might have been heard late Sunday afternoon in different parts of the city when students in the Art School awoke in their respective abodes.

They had been working for two weeks preceding this God-given Sunday without let-up. Arranging a year-end exhibit, reception, decorating Sorority Hall's Recreation Building, and throwing a dance were all part of the new Fine Arts Council's duties. It all came off Saturday night, May 14. Everything worked out to perfection; the food was good and plentiful, the exhibition "was" successful, and the dance went over with several bangs. (The typist is beginning to regret that she could have but didn't attend the ball, after typing these glowing reports.)

This project is the first undertaken by the students in this new organization, and there are so many students who deserve thanks, who spent hours at a time to put their names, that we could not put in all their names. (The Hatchet has only six pages.)

Post Mortems: We admire the courage of Kitty Baar's young man who submitted to the brilliant smock and scarf bow. We remember: the beer party after the dance in Mr. Eggle's studio up the street.

Dickey's frenzied chase to beat the twelve o'clock deadline for beer purchases. . . . Mimi Norton perched on top of a table right in the groove with some torrid tunes between the halves. . . . The thunderous applause she received thereupon. . . . The Community Sing that followed. . . . those six Sig Eps who descended upon the unsuspecting but delighted female population. . . . Stan Grabavz elegantly clad (and two hundred pounds of him) in a form-fitting smock. . . . and finally the finale at the A. & W. and the pleasure of being chased by Imogene Boalch. . . . and Bennet Willis.

At the end of the last year at Lycee, in addition to the "leaving certificate" examination, students must take a matriculation examination before they may enter a University or other institution of higher learning. In Universities or specialized colleges five-year tutelage is required for a degree.

In Turkey, the young student said, education in all primary, secondary schools, universities, professional and higher schools is under the control of the Ministry of Education and no tuition is charged in all the state schools.

"One thing that would be strange to Americans is that the police department has no jurisdiction and no authority to arrest a student except

## Don't Be Med!

by Hugh Allen

CONGRATULATIONS are due several of the faculty members for their success in recently being elected to important offices in the medical field.

Dean McKinley has been made president of the American Association of Pathologists and Bacteriologists.

Dr. Conklin was re-elected to the position of secretary-treasurer of the District of Columbia Medical Society, for the 16th time.

Doctors Mallory and Lyons have been elected to preside over the society, each for a year. Dr. Mallory will take office July 1, 1938, and Dr. Lyons, July 1, 1939.

It is hoped that the delicate brain operation performed by Dr. Schoenfeld last week will prove successful.

The new technique will certainly prove another step in the advancement of medical science in its purpose will save people from living a life of "social uselessness."

Snake! Yell that near Buckley, gang, and watch his heels fly, or ask him about the time he was swimming instructor at a boys' camp.

The kids got wise to the fact he didn't like the slimy animals, and really put the bug on him.

"Lights, camera, action!"—or any way we have the camera! Sam Futrovsky surely has some swell shots he got with that little candid Argus of his.

Boy! Some people can acquire the darndest expressions as they leave the front door, and step down onto H Street.

What happened in the "prescription writing final?" I understand "the little dictator" crossed up a number of the boys on dosage.

What's the difference between a few drops and a few teaspoons full, anyway? The patient, probably, wouldn't take it correctly after all.

The pharmacology sophomores, I hear, have organized the "One Teaspoon-ful Club." The boys think it would be a swell idea if the teaspoon wasn't full of arsenic.

According to those present at the last Phi Chi dance, the Phi Chi's think the "Gup" is the best chemist in the world.

F. A. King Society last Friday held the first of what they hope will be a series of annual banquets. If the future affairs can in any way compare with last week's, the success of the annual feasts will certainly be insured.

Ask Stehman why the Phi Sigs lost the championship ball game to K. A. Sunday. What a game—three and a half innings completed in two hours. That probably is the reason for any sour look he may be wearing this week.

Only 682 votes were cast, but the vote was so overwhelmingly in favor of the plan, that Council officials said they felt justified in submitting the plan to University authorities.

The final tabulation showed 504 for the plan and 178 against.

The votes were distributed as follows:

	For	Ag't
Medical School	53	12
Law School	113	53
Building D	184	73
Student Club	149	40
Total	504	178

Rochelle in Favor

"We feel that in view of the vast majority in favor of the plan, we are fully justified in submitting it to the Administration," Bill Rochelle, president of the Student Council, said. "I believe that the vote is indicative of student opinion since it is certain that all who were actively opposed to the plan voted against it."

The proposed plan calls for an additional payment from each student of one dollar per semester, which will be paid into two separate funds, one to provide surgical care and the other for an endowment for the erection of a Student Commons building to house a student store and clubroom facilities.

Costs Estimated

Of the \$15,000 which will be realized annually under the plan, \$5,000 will be used to pay operating room costs for any student and the balance which will amount to \$320,000 in 20 years will go into the building fund. Council officials emphasized the fact that students will not have to wait the full 20 years for the building but if the plan is approved, it will be erected in the near future and paid for at the end of that period with the fund which will have accrued.

The surgical aid plan provides for surgical care by any physician of the student's choice in addition to the hospitalization provided by the regular activity fee.

Law

(Continued from Page 1)

penditure of Public Funds—The General Accounting Office.

Claude E. Hamilton, Jr., counsel for the Reconstruction Finance Corporation, will discuss the "Legal Experience of the Reconstruction Finance Corporation as a Government Corporation."

James Lawrence Fly, counsel for the T. V. A., will hold the final meeting of the symposium with a lecture on the "Legal Experience of the T. V. A. as a Government Corporation."

## Pharmacy Professors Appointed

APPOINTMENT of two new full-time members to the faculty of the School of Pharmacy, and of three nationally known leaders of the profession as lecturers, is announced by Dean William Paul Briggs.

Charles Owens Wilson, Ph.D., of the University of Washington, Seattle, Washington, has been named Assistant Professor of Pharmaceutical Chemistry. Lee Gene Gramling, Ph.D., of the University of Florida, Gainesville, Florida, has been appointed Assistant Professor of Pharmacology and Pharmacognosy.

Dr. Wilson and Dr. Gramling will fill vacancies created by the resignations of John William Lee, M. S., in Pharm. Chem., Assistant Professor of Pharmaceutical Chemistry, and Frank Portunato, B. S., Instructor in Pharmacology.

New Lecturers

The new lecturers are:

James J. Durrett, M. D., Chief of the Drug Division, Food and Drug Administration, United States Department of Agriculture, Lecturer on Drug Control;

Evander Frank Kelly, M. D., Secretary of the American Pharmaceutical Association and former Professor of Pharmacy and Dean of the School of Pharmacy of the University of Maryland, Lecturer on Pharmaceutical Organizations;

Carson Peter Frailey, Ph.D., President of the National Drug Trade Conference and Executive Vice President of the American Drug Manufacturers Association, Lecturer on Industrial Pharmacy.

Special Lectures Announced

In addition to these appointments, Dean Briggs has announced that names of the experts who will present special lectures, motion pictures or demonstrations before the School of Pharmacy during the academic year 1938-39. Many of them will come from other cities. They include:

Dr. Ralph W. Clark, Merck and Company, Rahway, New Jersey; Mr. C. W. Lamont, Petrololag Laboratories, Chicago, Illinois; Mr. M. G. Meriam, Becton, Dickinson and Company, Rutherford, New Jersey;

Mr. Alfred L. Tenayson, Chief, Narcotic Section, United States Department of the Treasury, Washington, D. C.; Dr. M. G. Page, Research Consultant, Burroughs Wellcome Company, Tuckahoe, New York; Dr. Frank N. Kirby, Director of Education, Abbott Laboratories, Chicago, Illinois; Dr. A. C. Taylor, President of the District of Columbia Board of Pharmacy, Washington, D. C.;

Mr. Roland Jones, Jr., Special Washington Representative, National Association of Retail Druggists, Chicago, Illinois; Dr. Edgar K. Brazelton, Eli Lilly & Company, Indianapolis, Indiana; and Dr. Raymond Watson, Washington, D. C.

Students To Make Annual Trip

Other special lectures will be arranged for the coming year and Pharmacy students will make their accustomed annual trips to pharmaceutical manufacturing laboratories.

Obstetrician Addresses King Society Union

(Continued from Page 1)

koontz said, "one has to take the psychological reaction into consideration. People love to call themselves liberals. We have liberal Republicans and liberal Democrats. More people would adopt liberalism simply because they wish to be on the side of progress."

Should the Union fail to keep the present system Goodykoontz said he hoped the multiple system would be adopted and that each group would have representatives of the national parties come speak to it.

Change Would Stimulate

Prof. Yeager, who has sat with the president of the Union during meetings this year to advise him on parliamentary issues, attended the meeting more or less in an advisory capacity.

He had been asked to make suggestions on how the Union might be improved some time ago, and mentioned Friday he thought the change of names would stimulate interest to a great extent. He thought, also, there should be more meetings than was held since last October.

It was also stated that there had been a proportionate decrease in interest. Adoption of the multiple system was advocated as a remedy.

Committees Named

James Wilson and Stuart Russell were appointed to investigate the possibility of retaining the present parties; George Derr and Frank Brislows were named to study the feasibility of a two-party system (each have long advocated the idea), and the following were appointed to report on the multiple system: Betty Green, Jimmy Mott and Thomas Dowd.

Each group will report to the whole committee its findings when it meets June 10.

Radio

(Continued from Page 1)

band. Operation on this band would be for experimental purposes only and would be undertaken by student engineers under supervision of Jansky and Bailey, the firm of radio engineers who have a permit for erection of the station.

A radio attorney for the Westinghouse Company, the Bulova concern and numerous other radio manufacturers and stations, Lohnes is considered as among the best attorneys who practice before the F. C. C.

A. D. Ring of the commission and John C. Gall, attorney for the National Manufacturers' Association, both considered him as a well qualified man in his field and very well known in radio work.

These functions, as well as those of serving as a research laboratory in jurisprudence, and the maintenance of professional standards of training and morals, could be performed better through an improvement of the faculty.

This improvement can only be brought about, according to the report, by the increase of the time available for research and by increases in appropriations for faculty salaries.

These changes, in turn, can be accomplished only if "all funds received from the operation of the Law School, less a reasonable amount for administration purposes, be devoted to the upkeep and improvement of the Law School."

Churchill Heads Math Club Next Year

MATHEMATICS CLUB elected Morton Churchill president and Mrs. Martha Clark secretary at its meeting Tuesday.

Dr. W. Clemmes Mitchell, who joined the faculty in September from the University of Texas, was chosen faculty adviser for the coming year.

Elections were followed by a talk by Physics Professor Seeger on "The Kingdom of the Sciences," and by an informal discussion on the future of mathematics and physics led by Dr. Seeger and Dr. Taylor of the Mathematics Department.

ENGINEERS

WILBUR T. McNALLAN, senior in the School of Electrical Engineering, will address the student branch of the A. I. E. E. on the Bureau of Lighthouses, Department of Commerce, at the meeting tomorrow at 7:30 p. m. in D-200.

Some of the material to be illustrated by McNallan covers electric generating units installed in light-houses, batteries, radio beacon stations, ships equipped with radio communication and navigation aids under the direction of the Bureau.

Officers will be elected at this meeting for the coming year. For the information of John Earl Parsons, senior electrical engineering student, refreshments will be served.

HARRY O. WRIGHT, JR., was elected president of the student chapter of the A.S.C.E. for the coming year.

Other officers elected at the last meeting were Spencer B. Rixse, vice president; Leonal W. Brenna, recording secretary; L. J. Bjorklund, recording secretary; P. A. Joney, treasurer; A. B. Millard and W. C. Crump, delegates to Engineering Council.

The local chapter and the Catholic University chapter will be guests of the District of Columbia section of the A.S.C.E. at a buffet supper on June 3.

Talks on subjects of their own choosing will be given by graduating students from each of the schools represented. Sigma Tau Sigma Tau.

AUGUST B. MILLARD has recently been pledged to Sigma Tau, national honorary engineering fraternity, and Nathan Moerman has initiated into the organization immediately before the Engineer's Banquet.

The last meeting of the year will be tomorrow night in D-204 at 7 p. m.

American Society of Mechanical Engineers

EDWARD LANE was unanimously elected president of the local branch of the A.S.M.E. at the last meeting.

Other officers for the coming year are Bernard Chew, vice chairman; J. Werner, secretary-treasurer; Richard Simmers and Frank Oliver, delegates to the Engineering Council; Tom Johnson, Richard Simmers, and Frank Oliver, delegates to the A.S.M.E. convention to elect activities representatives to the Student Council.

(Continued from Page 1)

A. D. Ring of the commission and John C. Gall, attorney for the National Manufacturers' Association, both considered him as a well qualified man in his field and very well known in radio work.

Commerce

ALPHA KAPPA PSI, professional commerce fraternity, will celebrate its 33rd anniversary Friday at 8:30 p. m. at the home of Dr. Richard N. Owens, deputy counselor of the fraternity.

Orton W. Boyd, professor of principles of accounting and taxation at the university, will speak to the members on "33 Years of Alpha Kappa Psi."

Boyd is a graduate of Ohio State, being a member of Alpha Kappa Psi there. He is co-author of "Problems in Income Tax Fundamentals" by Boyd and Pearce, and is at present connected with the Securities and Exchange Commission.

The fraternity was founded Oct. 5, 1904, at New York University, and was incorporated in New York May 20, 1905, which date is observed as the birthday.

Charles Armstrong, alumni member, will speak to the fraternity on the subject "Experiences of a Junior Accountant."

Demit Ritual will be conducted for the three graduating members, Norman E. Simms, Irvin S. Dyke, and Clinton C. Sisson.

Ward Society

INSTALLATION OF newly elected officers of the Lester F. Ward Sociological Society was recently conducted at a regular meeting of the organization.

The ceremony took place at the third Founders' Day Banquet of the society, held annually to mark the anniversary of the inauguration of the club at the University.

The officers for the coming year are Percy Hyton, president; Virginia Dawson, vice president; Vivian Payne, secretary; Mitchell Bernstein, treasurer.

Dr. F. Goetz Brief, professor of labor economics at Georgetown University, gave the principal address of the evening and was also in charge of the installation exercises.

Rappings Of The Gavel

By Speed Stanton and Archie Wilson

GENTLE READER, have you noticed the hum drifting down from the top floor of Stockton? That's our future barriers busily preparing themselves for those unnerving days so close at hand. Everyone is studying, and we have definite proof too. Smittie was so engrossed in burning midnight oil, even in the daytime, that she would not answer the phone, and when Smittie is that busy—but need we say more?

The D. C. Bar Examination will be held June 23, 24, and 25. Good luck, contestants!

Phi Alpha Delta

Phi Alpha Delta held the last business meeting of the year recently. The purpose of the meeting was the selection of officers. Those elected were: Joe deGanahl, Justice; William Byrd Tixler, Vice-Justice; John Matter, Clerk; M. C. Redman, Treasurer; and Lloyd Fletcher, Marshall.

Phi Alpha Delta will entertain with a graduation dance at the Potomac Boat Club on June 11, in honor of the graduating seniors and the retiring officers of the fraternity.

Two other legal fraternities have closed active seasons with social events. Delta Theta Phi gave a dance recently and Phi Delta Phi held a dinner.

Please take note of the announcement of the symposium on government corporations to be held from July 15 to July 22 inclusive. It's on page one.

Cornerstone

(Continued from Page 1)

of the Board of Trustees of the University, will be honorary chairman of the Constitution Day Convocation. Dr. Harry C. Davis, secretary of the board, is chairman of the committee on arrangements. Serving with him are representatives of faculty, alumni and student organizations.

THE FOLLOWING members of Omicron Delta Kappa, honorary activities fraternity, will serve as ushers at the cornerstone laying: George Croft, Vic Sampson, Robert Faris, Jay Samuel, Sam Walker, Winfield Rankin, Sydney Cross and Richard Simmers.

In the Keen Competition There Are Sportsmen

● PHI SIGMA KAPPA has finally been toppled from the Interfraternity baseball throne. Kappa Alpha is the new champion. Everyone knows that, and gloom reigns in both camps.

Kappa Alpha is in no mood to celebrate its victory, despite the fact that it is the first fraternity other than Phi Sig to win the cup in five years.

Victory for K.A. was a very costly one, as it resulted in grave injuries to one of the most loved and respected members of their fraternity—Cap Gardner. During his membership in K.A., Cap has done a great deal for the Chapter. In addition to being president of Kappa Alpha, he is also president-elect of the Student Council, and president of the Interfraternity Council. Cap was also former co-director of the Food Drive, and so it goes down the list.

Last Sunday morning there was a group of college athletes engaged in the final contest of the Interfraternity Baseball League. Both sides played hard; a natural, healthy tendency. Phi Sigma Kappa was behind and betrayed no joy over existing conditions, while the K.A.'s, of course, were reveling in their fortunate position. Near the end of the game, things were getting brighter for the Wisconsin Avenue boys, with a safe 8-2 lead, while the 1822 Eye Street residents were getting gloomier.

Then an accident happened, one that occurs in baseball, from the sandlots through the major leagues. Cap Gardner and Jay Turner, each chasing a fly ball from the bat of Harry Ernest, and unaware of each other, crashed head-on. Both players were knocked out. Turner suffered a deep cut just above the right eye, but Gardner received the most serious injury. His condition has been diagnosed as head concussion, abrasions, and shock.

The Phi Sigs proved themselves worthy sportsmen. As shocked as their opponents, they rushed to the scene of the accident, quickly took charge of matters, and rushed Cap and Jay to the University hospital. All day long the Phi Sigs filed in to the hospital to learn about Cap's condition.

There is "gloom in both camps tonight."

## Frosh Squad Drops 2 Tennis Matches

The yearling tennis squad lost two close matches this past week, although Johnson won all his matches. Playing St. Albans last Tuesday, a forfeited doubles match caused the frosh to lose 5-4. Two days later, the Maryland freshmen beat the young Colonials by a 6-3 score. Davey Johnson's streak has extended to six straight matches without a loss, while the Buff squad's streak has extended to six straight matches without a win.

The match with Western High school which was to have been played last Saturday has been postponed to next weekend.

## Kappa Alpha Drubs Phi Sigs 9-2 In Short Game To Win Greek Baseball Crown

● KAPPA ALPHA DETHRONED Phi Sigma Kappa as perennial interfraternity baseball champions last Sunday morning when they piled up 9 runs in the three innings that the game lasted. The Phi Sigs were able to score only two runs before the game was called.

Having won the title for the last five years, and except for one year, ten years before that, the Phi Sigs were established as the favorites before the game. Although they lost one game this year and K.A. lost none, the Phi Sigs were the winners in the stronger league.

## Sigs Draw First Blood

Thomas was leadoff man for the Phi Sigs, who were at bat first, and succeeded in getting on first on an error. Stehman followed and flied out, advancing Thomas to second. Jimmy Edmunds, up next, was walked by Lefty Skinner, moundsman for the K.A.'s. Thomas scored on an over-throw to second. Skinner struck out Schulte and Borden popped out to retire the side.

Allan Crane, K.A. left fielder and leadoff man, hit a Texas leaguer over second to get the first hit off Bob Faris, Phi Sig pitcher. Cap Gardner was thrown out at first, as Crane went to second, and Millard took first on an error in the outfield. Wade Skinner was the first hero for the K.A.'s, when he got a good bingle over first baseman to score Crane and Millard. Faris settled down at this point and Hayes popped out and Turner struck out to end their session at bat. Score: first inning, K.A. 2 runs, 2 hits; Phi Sig, 1 run and no hits.

## Inspired Fielding

Wade Skinner had everything under control in the third inning and was backed up by inspired infield. Firth grounded out to short, and Harry Ernest singled over second for the only hit of the inning, and Faris and Dawson grounded out, leaving Ernest on base.

Bus Fleming, Maroon and Yellow catcher, started the second inning with a single through short, and Billy Richardson was walked. Lyle Lipscomb took base on a line drive that Borden muffed, and Fleming scored. Crane walked. Cap Gardner started a scoring spree, when he hit safely and drove in two men. Millard drove in two more men when he got a solid single. Faris was way off form, but settled down enough to strike out one man, allowing no more hits for the inning. Score: K.A., 8 runs, 3 hits; Phi Sig, no runs, 1 hit.

Skinner was really hot in the third inning and struck out Thomas and Stehman in a row, and Edmunds did no better than hit a grounder to third for this Phi Sig out.

Harry Ernest replaced Bob Faris on the mound for the Phi Sigs at this point. Lipscomb walked to open the last half of the fourth, but was put out when he tried to steal second. Crain tallied his second hit

(See Baseball, Page 6)

Davey Johnson

## Pros Honor D. Johnson, Frosh Net Ace

By Frank Mann

● DAVEY JOHNSON, number one on the frosh tennis team, received a signal honor last week from the hands of Ellsworth Vines and Fred Perry, well-known professional tennis players. These two top notchers of the net world presented Davey with a handsome silver trophy, emblematic of his being the outstanding junior tennis player of the District of Columbia in the 1937 season.

## Father Is His Teacher

Davey, a freshman pre-med student in the University, has been playing tennis for about seven years. Almost before he was as high as the tennis racket, he now wields so efficiently, he was taught the fine points of the net game by his father, who is also quite a tennis player. How well he learned the fundamentals taught by his dad can well be shown by his accomplishments in major tennis tournaments since 1935.

It was during his stay at Roosevelt High School that he started his climb towards the top of the heap in District tennis circles. Although participation in tournaments took up much of his spare time; he still managed to captain his school tennis team for three straight years, and end up, scholastically, with a very creditable "B" average.

## Wins District Title In '35

Playing in the boys' division in 1935, his first year in real tennis competition, he ran off with the District of Columbia boys' title. He also was runner up in both the Maryland State boys' and the Middle Atlantic boys' tournaments. The same year he teamed up with Weinstein of Philadelphia to be runner up in the Middle Atlantic doubles competition.

The next year his tournament activity was confined mostly to doubles work. Teamed with Al Rittenberg, he captured the D.C.

(See Net Ace, Page 6)

## Butler Bulldogs Are Giant-killers

This is the second in a series of articles on next year's football schedule.

● "LITTLE GIANT Killer of the Midwest" is the slogan often used by sport scribes in describing Butler University, newcomer to the Colonial football schedule. For although not of high national ranking the Bulldogs have invariably proved poison to any big teams they played—poison always comes in small doses.

Last season the "giant killers" won six games and lost three, among their victims were Cincinnati and Washington and Jefferson, both of whom were strong teams.

15 Lettermen Returning  
Chief reason for this year's high hopes are 15 returning lettermen, with an undefeated frosh team for replacements.

The Bulldogs will be lighter this year than they have been in previous years, the average weight being about 187 pounds per man. Coach Paul Hinkle says they will make up for this by speed, however. Inasmuch as about 30 per cent of the track-team are footballers, this is easily believable.

Other things of interest concerning Butler's football team: Paul "Tony" Hinkle, the coach, is a former All-American; Butler is his alma mater. Like Reinhardt, he also turns out some excellent basketball teams.

## Play Purdue In '39

Last year the football team earned 142 points and yielded but 47 points. Their schedule for next year includes Purdue, De Pauw, Ohio Wesleyan and Western State. Tom Doyle is the only 200-pounder likely to break into the starting lineup next fall. He is a sophomore tackle. The game with the Colonials is on October 8, at Griffith Stadium.

## Roses Win In Flower League

## Bulletin

The Roses defeated the American U. champion intramural team yesterday afternoon by the score of 6-2 in an extra-mural game.

● BY WINNING three consecutive games, one by a forfeit, the Roses gained undisputed possession of the Flower League softball championship last week, and as a result they will play the American U. intramural champs Wednesday afternoon a second time. The Roses, who were the dark horse of the league, mopped up the Daisies 16-4 in the play off for the first half of the season, and then edged out the Violets 9-6 the next day to win the second half also. In the other games of the week, the Violets beat the Daisies 9-8, the Pansies beat the Daisies 11-3, and the Pansies forfeited one game to the Roses.

In the Roses-Daisy game for the first-half championship, what had been heralded as a close game turned into a massacre. The Roses' 16 runs were the result of both the numerous errors of the Daisy infield and the heavy batting of the Roses. George Garber's hitting was the feature of the latter while "Manny" Hyatt's stellar pitching held the Daisies in check throughout. For the Daisies Tom "Rosy" Baehl was outstanding in the defeat.

## Big Battle of Week

The Roses-Violets 9-6 game for the second half championship was the big battle of the week. The Violets, who were the most improved team of the second half of the season, were "in the game" all the way. It was a muddled duel between Ray Hankin, Iowa speedball artist, and "Manny" Hyatt, the Roses ace. There was little to choose between the two pitchers and the heavy stick work of Tom O'Brien and Biff Borden finally made the difference. The stellar fielding of "Booby" Koch and Bill Meyers of the "Brain Trust" kept the Violets in the game.

## Violets Edge Out Daisies

The Violets clinched runner-up position for the second half by edging out the Daisies 9-8. It was another close one. Going into the last inning the Violets were leading 7-6. At this stage of the game Tom Grady, a southern "gentleman" from Georgia, started a rally with a neat single. Wagner, Adjer and Co. continued the onslaught and when the fireworks cleared up the Daisies were leading 8-7. In the last half of the inning however the "brain trust" played two more runs to win the game 9-8.

THINGS  
AND STUFF  
(OF WHICH MOST IS STUFF)

● RUMOR HAS IT that the athletic department will soon have the October 15 open date on the football schedule filled; it will probably be a "big name" team.

● GEORGE MITRUS, Colonial freshman football player, received a tryout with the St. Louis Browns when they were in town last week, and then he turned down their offer in lieu of a better one.

● FROM SOUTHERN California comes news that Coach Howard Jones has football players four deep in spring practice. It seems Howard would rather have good players sitting on the bench beside him than playing against him.

● JACK MANDERS, star pitcher for the University this year is a cousin of Cleveland's Bob Fellers; Jack and Bob played on the same city championship team at Des Moines and look a lot like each other.

● BIGGEST MISNOMER of the athletic department's intramural program is the "Flower League"; for those who don't know, the teams are composed of "out of season" football and basketball players. "Pansies" and "Violets" hardly seem adequate names for the 200-pound lads.

● ERNIE PINCKERT, erstwhile All-American football player from University of Southern California, is now working as a salesman for a Los Angeles sporting goods company. And yet another athletic "great" from the same school is a filling station operator. Who said U.S.C. doesn't place their graduates in "responsible" positions.

● ALTHOUGH it's a bit early for predictions, prospects look good for another successful Colonial basketball season next year. Coach Reinhardt has nine veterans returning from this year's great team and the nucleus of an undefeated freshman group. Notable prospects among the frosh are Eddie Amendola, elongated center, and "Manny" Hyatt, a sharpshooting forward. Hyatt is a brother to the former All-American star from Pitt.

● INFORMALITY WAS the keynote of the Varsity House spring dance last Saturday night. It was a decided success.

## Sports

## Buff Netmen Down Argyle Country Club

● IN A PRACTICE match played in between the raindrops, Sunday, May 8, the varsity netters defeated the Argyle Country Club team 5-0, at Columbia Country Club.

Before the rain started coming down in earnest, the Colonials had taken five straight singles matches, and were on their way to victories in the doubles. The contests all the way through were hard-fought and well played, four of them going the maximum length of three sets. Don Surine, Jack Butterworth and Bob Brasted to win. Bob Faris won his match when his opponent defaulted in the third set, while Elwood Davis was fortunate in having to play only two sets to collect his victory.

Another varsity tennis match played a few days earlier found the Buff men dropping the second decision of the season to Elton College, but not until Malcolm Mintz and Bob Brasted carried Elton's doubles team of Jonas Pittman and Bruce Flory to three sets in the final engagement.

With the result of the match hanging on the outcome, Flory and Pittman whipped Mintz and Brasted, 6-4, 4-6, 7-5, to give Elton a 4-3 victory. The Colonial duo "gave their all" to try and wipe out the earlier defeat handed them by the Fighting Christians, but the breaks went against them, and they lost to give Elton the win with the identical score by which they won the earlier match.

Singles matches saw Jones of Elton defeat Jack Butterworth in a hard-played three set match, 2-6, 6-3, 6-1. Butterworth won his first set easily, but was unable to cope with the shota-making of Jones and lost the next two sets, and the match. Greenwald of Elton then beat Morris Stolar in another tough three-set match by the scores of 6-2, 6-8, 6-4. After Elwood Davis lost a fast-played 6-1, 6-2 match to Pittman of Elton, the Colonial team reeled off the next two singles matches and the first doubles engagement. Bob Faris of G.W. defeated Flory, 9-6, 6-4, and Bob Brasted, also of G.W., beat Matthews, 6-2, 6-3. Jack Butterworth and Bob Faris then paired up to trim Jones and Greenwald, 6-4, 6-8, 6-4. Then came the final, all-important doubles match, which gave the victory to Elton College.

## Horseshoers to Meet Maryland

● THE FOUR BEST horseshoe pitchers of the University will engage in an extra-mural match with a like team at the University of Maryland tomorrow afternoon.

Performing for the Buff and Blue, the four-man team will be made up of Frank Felton, James Rice, Richard Lankenau, and probably Vic Sampson.

## Bradley Tech Faces Buff Quint in '39

Bruce Mahan

## Grid Grad No. 6

Bruce Mahan  
Scholar  
Blocker  
Halfback

● ONE OF THE REAL scholars in the Varsity house this year is Bruce Mahan, Varsity halfback. Maintaining an average well over 3.0 in his major of P.E., Bruce is classed as the football player who actually likes to study, by the coaching staff.

A native of Tillamook, Oregon, where he was recognized as one of the outstanding backs in Oregon high schools, Bruce entered the University after one year's work at the Oregon Normal. In his sophomore year, Mahan was understood to the greatest of all G.W. grid grads, Tuffy Leemans, and earned his first letter.

The next fall he was shifted to halfback, where he fitted in very efficiently because of his superior blocking ability. He was injured shortly after the season began, however, and missed about half of the season when he sustained a shoulder injury.

Playing at halfback again last year, Mahan was an important cog in the grid machinery, but did not get the recognition from the fans that he would have had he been a ball carrier. He was needed as a blocker, and as there were several sophomore ball packers on the squad as well as Sampson, Turner, Kaufman, etc., he was used in the blocking half position.

Using his 170 pounds and 5 foot 9 to an advantage, he was rated as a good defensive back by Bill Reinhardt, and was valuable in his defensive half position for his ability to spot plays.

● BRADLEY TECH, the team that was selected over the Colonials to play in the national basketball tournament in New York last March, just when Bill Reinhardt's star players were expecting a bid to the tourney, have been scheduled for the Colonial road trip by the athletic department.

The Buff five will play the Indians at Peoria on Feb. 15, finishing a road trip that includes games with Toledo and Butler. Last year Bradley Tech compiled an enviable record of twenty-four victories in twenty-five contests.

## Big Games Still Pending

Eight games have already been scheduled, but negotiations for several of the "big" games are still under fire according to the University athletic department. Western Reserve and Ohio State will probably be added to next year's ambitious programs, which brings the Colonials face to face with some of the country's strongest basketball teams.

To date, the incomplete schedule is as follows: The Buff quint starts the season away from home, playing Ohio State at Columbus on Dec. 10. Clemson will furnish the opposition in the curtain-raiser here on the 16th, and Ohio University will follow one week later, on Dec. 23.

## Colonials Play West Point

The Buff and Blue Tornado meets Army at West Point on January 15, resuming relations with the Cadets after a one-year break. On Feb. 11, the Colonials start their westward swing, with three stiff games scheduled. They face Toledo on February 11, meet the strong Butler five on the 13th, and tackle Bradley Tech at Peoria on the 15th.

St. Johns of Brooklyn will play host to G.W. on March 4. The athletic department is busy filling the other open dates.

## Extramural Golf Won by Colonials

● THE UNIVERSITY athletic department has received the Western Maryland golf meet trophy, which was won by the Colonial extra-mural golf team at Westminster, Maryland, a week ago last Saturday.

The Hatchet wishes to correct the story of the match which appeared in last week's issue. The story erroneously stated that the "varsity" golf team won the tournament. There is no varsity golf team representing the University. However, the athletic department would like to make plans for and establish a varsity golf team next year.

The tournament was made up of intra-mural golf teams from the various colleges that participated in the affair, and it was purely an extra-mural match.

## Columbia Banquetoria

2125 G St., N. W.  
SPECIAL LUNCHEON, 25c  
Soup, choice of meat or fish, two vegetables, bread and butter, coffee, tea or milk, and FREE salad table.

## YOUR EDUCATION IS NOT COMPLETE UNTIL YOU'VE SEEN GERMANY

It's true. Think what you can learn in the land that gave the world Goethe, Wagner, Beethoven, Dürer, Nietzsche, Mozart, Kant and Luther. Great art and superb music... each an education in itself.

Possibly you would enjoy even more a glorious steamer trip on the castle-guarded Rhine or the blue Danube... a visit to dear old Heidelberg... or a healthy, interesting hiking or biking tour from one Youth Hostel to the next.

For a glimpse of continental life and leisure, you will stroll along Berlin's Unter den Linden. Of hospitable Munich with her golden brew, you have heard... Not far away are the Bavarian Alps and Austrian Tyrol. And then romantic Vienna, living in waltz time and happily reunited with Germany.

Everywhere historic or legendary names will jog your memory—the Meistersinger at Nürnberg, Frederick the Great at Sanssouci, Charlemagne at Aachen. Living and travel are inexpensive, especially with Travel Marks at 40% savings and special rail tickets at 60% reductions.

Consult your Travel Agent and write for information and booklet "C".

## Final Examination Schedule

May 25—June 4, 1938

The class schedule is suspended during the examination period. Examinations will be two hours in length. Books and scratch papers may not be taken into the examination room unless authorized by the instructor in charge.

Third group courses are not included. Courses in Law, Medicine and Pharmacy will be arranged by each school involved. Conflicts which cannot be adjusted with the instructor, and errors should be reported to the Registrar.

## Schoenfeld Pioneers In Surgery

● EMPLOYING A NEW technique in brain operations, Dr. Herbert H. Schoenfeld, assistant professor of surgery at the Medical School, last week, opened the skull of a small Washington boy and cut the membranous brain casing.

The operation was performed on 2½-year-old Alden Vorrath, son of Mr. and Mrs. Henry Vorrath of Taylor St., N.E.

Dr. Schoenfeld operated at Children's Hospital and was assisted by Dr. D. D. V. Sturat, neurologist. Several local physicians were present to observe the delicate operation.

Cause for the surgical treatment was microcephaly—an abnormal smallness of the brain. This malady, according to medical authorities, will cause a person to live a life of "social uselessness."

The new technique consists of forcing the skull in halves and keeping it at an opening of about a half an inch by metal wedges. The surgeon can then reach the dura or membranous envelope surrounding the brain, and cut it. In this manner the patient's brain is given further room for expansion.

A preliminary operation through which the child successfully passed was performed by Dr. Schoenfeld, last year, at Children's Hospital.

The surgeon expressed a strong opinion Sunday night, that the operation would prove a success.

According to medical literature, an operation on the brain sac, such as this, has never been performed before with survival of the patient.

## Last Chapel Will Sum Up Year's Talks

● "COME NOW, and let us reason together" (Isa. 1:18) will be the subject of the chapel talk by Provost W. C. Ruediger Friday at 12:10 in Car-10.

Dr. Ruediger will attempt to bring into unison the essential points of the chapel talks during the year. This will be the last exercise of the current school year.

## Dr. Ragatz Gains New Distinction

● PROF. LOWELL JOSEPH RAGATZ, of the History Department, is one of two American scholars who enjoy the honor of serving on the International Committee of the Historical Sciences, whose publication, "International Bibliography of Historical Sciences," has just come out of the press.

"International Bibliography of Historical Sciences" is the standard reference work in the historical sciences for the entire world. It replaces the Historical Zeitschrift which was published in Germany until the World War.

The International Committee formed to handle this work includes two history students from each of the important countries of the world. Dr. Ragatz and W. Stull Holt, of Johns Hopkins University, being named the American editors in 1935.

Other famous historians named to serve on this committee include V. L. Harlow, of Oxford; G. P. Gooch, of London, and Dr. G. Abb, of the University of Berlin.

Professor Ragatz relates that during the course of a year something like 400 volumes of pamphlets and publications and over 2000 books come before him for consideration.

## Med Fraternity Holds Banquet

● ALPHA EPSILON IOTA, Women's Medical Fraternity, held its annual Founder's Day Banquet last Saturday at the Kennedy-Warren Hotel.

Dr. Margaret M. Nicholson was toastmistress and Dr. Louise F. Galvin of Richmond, Va., was guest speaker. Dr. Galvin spoke on "Congenital Syphilis, its Diagnosis and Treatment."

At a recent meeting the following officers were elected for the coming year:

President, Ella Fraser; vice president, Dorothy Jaeger; recording secretary, Florence Grady; corresponding secretary, Ellen Posnjak; treasurer, Elizabeth Kahler; custodian, Genevieve McLaughlin.

## Psychology Club Holds Party

● AN INFORMAL party marked the final meeting of the Psychology Club last Saturday evening at the home of Dr. Mitchell Dreese, of the Psychology Department, who acted as host.

Although a moonlight hike had originally been planned, bad weather forced the substitution of the indoor picnic.

Following supper, the guests were entertained with games, stunts, and imitations.
